

Perenna

RATE MORTGAS

Perenna information and Long Term Fixed Rate Mortgage Product Specification.

About Perenna

Perenna was established to create a nation of happy homeowners. We believe that everyone who can afford a home should be able to own one.

To achieve this, we knew things needed to change. That's why we've created a new kind of mortgage bank. A bank that changes how mortgages are funded. This allows us to offer flexible long-term fixed rate mortgages that protect our customers from rising interest rates.

Our range allows customers to better plan for the future. And it allows us to help more people onto the property ladder.

What's more, we don't apply age limits to our products. That means helping more people to stay in their home throughout retirement.

2018

Arjan, Hamish and Colin incorporated Perenna to start a Danish-style mortgage bank using covered bond funding.

2019

Initiated the journey towards becoming a licensed bank by submitting the core regulatory documentation.

2020

Invited to submit a bank licence application. Raised a £7 million Seed Round to support the bank licence application.

2021

House prices reach record levels, and first-time buyers are locked out of the market, proving the need for a bank like Perenna. We're working hard to build a unique type of bank and the team is growing.

2022

Authorised as a bank with Restrictions by the Prudential Regulation Authority (PRA) and the Financial Conduct Authority (FCA). Raised a £25 million Series A from IAG Silverstripe. Inflation resulted in increasing interest rates and uncertain times ahead for mortgage borrowers.

2023

Raised over £42 million in latest round of investment.
Received full banking licence from the PRA and FCA.

2024

Began lending to customers.

What do brokers say about Perenna?

"I can safely say that it was the best first case I had ever submitted to a new lender in 20 years. Staff, policy, system and speed were all top class."

"Couldn't have been more impressed with the service I received from Perenna and cannot thank you all enough. System felt very modern, smooth and easy to use without too many questions. Support teams are the best I have dealt with in a while, everyone was super helpful over the phone and even the underwriter on the case was responding within hours. Client went with Perenna for help with affordability and I will now be recommending Perenna a lot more."

"Dealing with Perenna is pretty joyful, we get fantastic support, quick processing times and a great alternative to interest only for older borrowers – what's not to like!"

You can reach us by phone, live chat, or email. Phone lines and web chat are open Monday – Friday, 9am – 5pm (except bank holidays).

The Perenna Long Term Fix Mortgage

Perenna's long-term-fixed rate mortgage is all about giving customers long-term peace of mind with fixed interest rates for 7 to 15 years. The product is designed to help make homeownership more affordable and provide flexibility where a customer does not wish to pay a higher premium to secure a 'fixed for life' product and they are willing to accept a small amount of interest rate risk, knowing that their rate may increase after the 7-15 year term. That means customers enjoy consistent monthly payments on loans up to 95% of their property's value for up to 15 years. What's more, customers may be able to borrow up to six times their income, subject to criteria.

The product does include early repayment charges ("ERCs") for the fixed rate period, however these are only paid where the customer chooses to refinance, either to another lender or a new product with Perenna. If a customer sells their property or wants to fully redeem with their own funds, then this would not incur any ERCs. The product also allows for small overpayments, up to 10% of the outstanding balance per year, without ERC.

To help provide more options, there's no maximum age limit, and after the initial fixed period, the customer can repay or switch without penalties. This product combines long-term stability with the flexibility to adapt as customer's needs change.

Product criteria

Loan Type	Purchase, Remortgage, Further Advance
Repayment Type	Capital and Interest, Interest Only (75% LTV max)
Term	7-40 years
Fixed period	7 – 15 years
Min Loan	£25k for new applications, £10k for further advance

Overpayments	Yes, up to 10% per annum of outstanding balance without ERC. The outstanding balance is as at the start of the period, refreshing on the anniversary of the completion of the loan each year. Overpayment can be used to reduce term or reduce payments.
Security Location	England and Wales

Target Market:

This product is for borrowers:

- Looking to purchase their first home.
- Existing homeowners looking to move home.
- Existing homeowners looking to remortgage.
- Existing homeowners looking to remortgage or move home later in life.
- Borrowers who are looking for a high degree of fixed interest security, but are not willing to pay a higher premium for a fixed for life product.

This product is not designed for borrowers who:

- Are classed as sub-prime, or where they cannot satisfy our affordability or lending policy requirements.
- Later life borrowers whose circumstances would be more suitable for an equity release, interest roll up, or retirement interest only product.
- Customers under the age of 18, or who reside outside of the UK.

How to Apply:

Perenna lending products are solely available via our Intermediary distribution panel. This includes selected mortgage clubs, Directly Authorised firms and Appointed Representative networks.

Fair Value Assessment:

Summary of our assessment

We have assessed that:

- Our prime residential purchase and remortgage product range continues to meet the needs, characteristics, and objectives of customers in the identified target market and offers fair value. Please see the detailed new product fair value assessment for details.
- The intended distribution strategy remains appropriate for the target market.
- The product provides fair value to customers in the target market (i.e. the total benefits are proportionate to total costs).

Customers with characteristics of vulnerability

The product is designed for the prime mortgage market. This is likely to include some customers with characteristics of vulnerability or who will experience vulnerability over time.

We have designed an overarching vulnerability framework to help identify, support, and manage customers with characteristics of vulnerability. The framework we have in place operates from loan inception through to maturity or closure. It allows us to provide flexibility in our processes to support vulnerable customers. It also allows us to monitor and ensure that we achieve good outcomes for vulnerable customers. It includes but is not limited to the following:

- All front line Perenna staff receive training on how to identify and support vulnerable customers, including Pepper staff who are offering first line servicing.
- All communications are available in Braille or large print if requested.
- Support can be put in place for customers in financial difficulty, which may include payment plans or payment holidays.
- Documents are issued digitally but can also be sent physically if required.

This product has no maximum age limit, so there is an additional risk of customer vulnerability due to age. To mitigate the risk of customer harm due to vulnerability in later life, Perenna has introduced additional lending criteria relating to older borrowers. Lending is restricted by loan to value. And some older borrowers, or those with vulnerabilities and where we deem it appropriate, will be asked to seek independent legal advice. By getting independent legal advice we can ask that customers fully understand the terms and conditions of the loan. This will happen before we allow funds to be disbursed. By getting independent legal advice we ask that customers have been met face-to-face.

Benefits

The product provides benefits to customers in the form of a fixed payment for a specified term, with a flexible early repayment charge only payable when a customer refinances the loan during the initial fixed period or where they make overpayments exceeding 10% per annum. We have considered the ongoing service and support available to customers once they have completed their purchase or remortgage to Perenna. The flexible features included with the product have been assessed. The way we communicate with our customers has been designed to be flexible and accessible, and has been reflected in this assessment.

Price

The interest rate charged for the product is calculated using a pricing model, which has been approved at ALCo following model validation. This considers the cost to Perenna of financing the loan. It also considers operational costs, acquisition costs, reasonable business profits, and appropriate charges to cover the risk profile of the loan. A management overlay is applied to pricing within an approved framework. This allows for competitiveness in the market and allows us to maintain service levels.

Costs

All fees associated with the loan have been assessed to ensure that they are fair and reflect actual costs and/ or risks associated with the product. Fees are regularly reviewed to ensure they remain fair and are published on our website.

This includes origination costs and those associated with in-life servicing.

Limitations

Where the product has restrictions or limitations these have been assessed to ensure they are fair and reasonable.

Results of our assessment

Our assessment concluded that the product delivers fair value for customers in the target market for the product.

This product provides fair value as it is:

- Designed to meet the needs of the identified target market.
- Offered via intermediaries who can offer the customer choice. And they will make a recommendation based upon their individual needs.
- Offered to customers who are provided with suitable pre-sale and post-sale information. This relates to product features, risks, and benefits.

No unfair or unreasonable product limitations restrict the benefits that customers can realise from their product and therefore inhibit them extracting a fair value exchange.

We regularly monitor and review our products, and if there are any material changes identified then this document will be updated and reissued, highlighting the changes.
